LOT 4 - The TMG Industrial 1

Description

The TMG Industrial 10,000-lb Overhead Two-Post Auto Lift is great for shops and personal garages. Several features, including added stability from the overhead cross member and no obstruction on the ground, make this lift easy to move transmission hoists, dollies, jacks, etc. The symmetrical arm design is ideal for handling vehicles with a gravity center toward the car's middle. Another highlight of the lift is the automatic stop switch, making it impossible to raise a vehicle high enough to cause damage.

This product is backed with a one-year manufacturer warranty, customer service and spare parts are supported from our headquarters located in Richmond, BC

Features:

- Symmetric telescoping reach arms provide versatile support positions
- Heavy-duty structural columns with a large base to increase stability
- Dual hydraulic chain drive cylinders
- Self-lubricated carriage sliders along with the columns
- Clear floor design
- Automatic arm restraints
- Automatic overhead stop switch
- Single point lock release
- Eight stackable height spacers included
- Mounting hardware included

Specifications:

- Load capacity: 10,000 lb
- Overall height: 145"
- Overall width: 146"

- Overhead stop switch: 140"
- Column width: 137" (BTW outside), 117.5" (BTW inside)
- Column size: 10" x 9.5"
- Column base: 19" x 17"
- Column steel thickness: 5mm
- Maximum lift height: 69"(without pads), 72.35" (with pads)
- Min. height with pad from the ground: 3.35"
- Pad height: 4"
- Adapter height: 3" x 4, 6"x 4
- Steel cable: 365" (10mm)
- Telescopic arms:
 - Front arm: 29.5" (min)--49" (max)
 - Rear arm: 34.25" (min)--49" (max)
 - Load capacity per arm: 2,500 lb
 - Arm steel thickness: 8mm/6mm
- Travel speed:
 - Lift speed at 90% load: 45 to 55 sec.
 - Lower speed: 30 to 40 sec.

Hydraulic Pump Power Unit:

- 220VAC, 3HP, single phase
- No-load speed: 3360 RPM
- Working pressure: 2600 PSI
- Tank capacity: 2.5 US gallons
- Pump oil required: AW32/AW46
- ETL certified for Canada and the USA

Packaging:

- Packed in a metal shipping crate
- Shipping dimension: 150" x 30" x 21"
- Shipping weight: 1652 lb

Quantity: 1
