

Sale Name: 22nd Spring Fever Machinery Auction

LOT 5a - TMG - BK 84 Inch SS Bucket

Description

Seller Description: TMG-BK84, Smooth general bucket 84 inches. The TMG Industrial 84" skid steer all-season clean-up bucket is the perfect fit for general use in landscaping and construction industries for all-year-round versatility. The low-profile layout and the wide working width make maneuvering heavy loads more accessible and efficient. An anti-slip step plate is placed on top of the bucket for exiting the skid steer safely. Lifting eyelets are provided for shackles and straps to secure loaded materials. High-tensile steel structure; Reinforced ribs added to the bottom and inside of the bucket; Low profile design Volume capacity: 0.98 cubic yards Weight capacity: 1500 lb Working width: 84" Bucket depth: 37" Cut edge: 8" x 0.63" Packaging: Packed in a metal shipping crate Shipping dimension: 90"x 37"x 24" Shipping weight: 708 lb

Quantity: 1
