VIN JT2AL35W7F0188026

Title Status No title

Description

Your buying two cars. The Silver one is a 1985 Toyota Tercel SR5 4WD Wagon. 1.5L 4cyl / Six Speed Manual. Odometer shows 162,200 miles.

We did have this car running with a jump pack and gas down the carburetor. It runs but sounds like it has lifter that might me stuck or not pumping up.

We were told buy the previous owner that it had a lot of work to get the transmission and clutch repaired. Then it sat for many, many years.

The tan car is missing the transmission and rear end. You can take the whole car or strip what parts you want and leave the shell. It has the whats left of the transmission inside + driveshafts. Has some usable fenders/doors.

No title for either. Will write you a bill of sale.
