Description

1970 Datsun 2000 Roadster

Nice looking car. Runs, moves, and stops. This car is in good shape and has a great interior. This car appears rust free and has a decent paint job. It has some leaks/seeps underneath (see pictures). We did hear this car start and run. We moved it back and fourth on the hoist.

4 cyl, manual transmission. Five digit odometer shows 86,686 miles.

This would be an extremely fun car.
