Description

Suzuki Eiger QuadRunner

Nice running and working four wheeler.

400cc Single, 4x4, high range, low range, has remote winch operated plow. Good tires, nice seat.

Odometer shows 1,490 miles.

This machine has new carburetor. It needs to be stored with fuel switch off. The old carb had a float issue and flooded the crankcase with fuel. It shouldn't have this issue now but it's just a precaution.

5ft blade w/ 2500lbs winch.

This machine has a clear title.

Quantity: 1
