

Sale Name: 25th Spring Fever Machinery & More Auction

LOT 895 - 1985 Ford Bronco II

VIN 1FMCU14S1FUB90200

Title Status Clear title

Description

1985 Ford Bronco II

2.8L V6, automatic, 4x4

This outfit will run but has issues starting/idling. Takes about a dozen try's before you get a stable idle. Once it's warmed up it will stabilize and run ok. Guessing it's a mix of accelerator pump & fuel pump/filter problems or a vacuum leak. This Bronco also has a large hit in the passenger B-Pillar and door. Frame appears to be straight.

Previous owner bought this from Smith Sales Co. in 2010 and has been using it for the last 15 years.

Good beater with a heater or budget side by side candidate.

Previous owner said it has newer brakes.

This vehicle could use a fresh battery.

VIN: 1FMCU14S1FUB90200, **Title:** Clear title

Tires: 15", **Bed size:** SUV

Quantity: 1
