

Sale Name: 25th Spring Fever Machinery & More Auction

LOT 2311 - 1250 gallon Septic Tan

Description

1250 gallon septic tank, as far as we know this tank was put in the ground and then for whatever reason there was a change of plans and it had to be replaced with a bigger tank, there is one bite mark from an excavator, which we will show you in a picture, use as you see fit. We certainly believe this could be put right back to work.

Quantity: 1
