LOT 2414 - 1970's 7 ft. Ford Bed from Crew Cab

Description

This bed has some rust, it will be pictured, if it was an 8 foot bed we probably would've scrapped it. However, this came off a crew cab and you can't really find these every day so I do believe someone will fix this one. The underneath has some surface rust on the bed floor. It sat in one place for decades.
