

**Sale Name:** 25th Spring Fever Machinery & More Auction

**LOT 566 - Updated / Mobile Generator 50 kW Three Phase**

### Description

Chinese Generator. We searched all over the machine for a Model number or tag but didn't see one.

Generator says

50 kW

480V-277V

75.2 Amps

Three Phase

Engine is a 4cyl Turbo Diesel Weichai Huafeng. It appears to have a leaking upper radiator hose.

Has a Deep Sea 5110 Controller module for starting/stopping the generator.

Update: Wyatt started this unit. See video. It sounds great, the electronics seem to function correctly. {We have no way to load test them.}

This originally was used / bought for a town in California to use as back up power for a building.

**Quantity:** 1
